Foxborough Public  
Schools

Project Early  
Preschool

## Who We Are

The Burrell Preschool is an integrated preschool program designed to provide rich experiences that promote a solid foundation of preschool skills for young children ages 3 to 5 years old. The student population consists of preschool aged children who enter through the lottery system and preschoolers placed in the program based on eligibility for special education services. The Project Early Preschool is committed to offering the young children of Foxborough, presenting with or without disabilities, an opportunity for high quality developmentally appropriate learning in an environment that encourages diversity, inclusion, cooperation, problem solving, and understanding. Skill acquisition is maximized through a developmentally appropriate, multi-sensory, and hands-on approach to play and learning and social emotional development.

## Preschool Team

The preschool team includes special educators, educational assistants, speech and language pathologists, occupational therapist, physical therapist, and a school counselor. We are dedicated to supporting each child as a unique “whole child” approaching learning comprehensively across all developmental domains.

Our curriculum is aligned with the standards reflected in the Massachusetts Curriculum Frameworks. Our curriculum addresses the 7 developmental domains; Cognitive Skills, Adaptive Skills, Speech and Language Skills, Social-Emotional Skills, Fine Motor Skills and Gross Motor Skills through play and learning experiences.
